### LIQUID EXTRACTS

Tinctures and Liquid Extracts can be manufactured to Pharmacopoeia standard for most items from the Dried Herb List.

**Cinnamon**

**Grapefruit**

**Guarana**

**Lavender**

**Neem**

**Vanilla**

*Cinnamomum zeylanicum*

*Citrus x paradisi*

*Paullinia cupana var. sorbilis*

*Lavandula angustifolia*

*Azadirachta indica*

*Vanilla planifolia*

### CO2 EXTRACTS

- These are manufactured on contract by our Indian partners.
- Super Critical carbon dioxide (SCO<sub>2</sub>) extraction, which is achieved by subjecting the raw material to CO<sub>2</sub> at a very high pressure, is an extremely efficient, clean, solvent-free process requiring minimal heat.
- Control over both the ingredients and the manufacturing process enables us to meet almost any specification.
- The proximity of many raw materials to manufacturing facility ensures significant savings on transportation costs.
- Normal minimum order 50kg. Pilot plant available for trials.
- Extraction by CO<sub>2</sub> covers a wider range of processes and products, with application for the medicinal and body-care market as well as food, beverages, flavours and dyes. WHERE APPLICABLE, SPECIES ON OUR FULL PRODUCT LIST CAN BE EXTRACTED BY REQUEST, to provide a range of product types - Essential Oil; Soluble Fixed Oil; Powder; Water Extract; Flavour Extract in Oil/H<sub>2</sub>O; Oleoresin; Total Extract; Water Soluble Extract.
- Prices will depend on the extraction method, volume and specification required.
